

EconS 101 – Fundamentals of Microeconomics: Course Announcements

This document will serve as a reference for announcements throughout the course. Both the Blackboard Announcements web-page and this document should be checked regularly.

– August, 27, 2020 –

Sapling Announcements

1. Please **always access your Sapling account through Blackboard** because Sapling is “tooled” directly to this course’s Blackboard course website. Please see the screen shot below about where you should go.

2. The Sapling course should look similar to the screenshot below if you have accessed this course’s Sapling course correctly. Note that the E-text for the book should be included with Sapling if you have purchased Sapling, and it can be accessed by clicking the E-text icon located in the top half of the page (see red box). All of the assignments can be accessed in the Activities and Due Dates tab to the top left, and please note that all of the assignments that are due are the End of Chapter (EOC) Questions that have due dates populated in their “Due Date” category. There should be 10 EOC Questions, and these are the only assignments due

for this course. All of the other assignments are open and are there for you to practice and study.

Washington State University - EconS 101 Microeconomics - Fall20 - NAVELSKI

Upcoming Assignments & Events

← Clicker here for Homework Assignments. Please note that the homework assignments are all of the assignments that have due dates!

Activity Name	Activity Type	Due Date	Status
EOC S1: End of Chapter Problems - Section 1: Basic Economic Concepts	Assessments	Sep 4, 2020 11:59 PM	Not Started

Module 1: First Principles

- PCT M1.1: Pre-Class Tutorial: Exploring Economics
- BR M1.1: Bridge: Exploring Economics
- PCT M1.2: Pre-Class Tutorial: Key Ideas in Economics

iClicker Announcements

1. Please **always** access your iClicker account via **this link** (see below). If you predominantly use iClicker as an App on your mobile device, please access your account via this link (see below) at least one time during the semester. Accessing iClicker through this link enables your Blackboard account to sync up to iClicker so that your grade will automatically populate in Blackboard when grades are updated. You can always check your iClicker grade via the website, but to ensure seamless integration, all students need to access the aforementioned link at least one time.

Sapling HW

- Link to Sapling**
ALWAYS use this link when accessing Sapling because not accessing Sapling through this Blackboard site may not save your work correctly.
- Link to iClicker**
ALWAYS use this link when accessing iClicker because not accessing iClicker through this Blackboard site may not save your work correctly.
- Econ 101/102 Tutoring Center Information**
They are housed in the Academic Enrichment Center, 4th Floor of the CUB.
- Registering for Sapling**

2. I was informed that all older iClickers will unfortunately not work for this class as they are run by a remote sensing technology rather than through a network. With that said, iClicker is currently offering a student discount via this link (<https://store.macmillanlearning.com/us/storefront/201801213>), and I encourage all to take advantage of this deal.

Zoom Announcements

1. All Zoom lectures and recorded Zoom lectures can be accessed via the Zoom tab in Blackboard (see below). It will bring you to an interface where you can enter the appropriate class room for that day (see below again).

The image shows two screenshots. The top screenshot is a Blackboard course page for '[SSCI] Fundamentals of Microeconomics 2020-FALL-PULLM-ECONS-101-4677-LEC'. The left sidebar menu includes 'Home Page', 'Syllabus and Course Information', 'Lecture Material', 'Zoom Online Lecture' (highlighted with a red arrow), 'Sapling HW', 'Writing Assignment', 'Online Exams', 'My Grades', 'Help', and 'Tools'. The main content area shows 'Home Page' with sections for 'My Announcements' (no announcements), 'My Tasks' (no tasks due), and 'What's New'.

The bottom screenshot is the Zoom web interface for the same course. It shows the 'Upcoming Meetings' tab with a table of scheduled meetings:

Start Time	Topic	Meeting ID	Start	Delete
Tomorrow (Recurring) 2:50 PM	[SSCI] Fundamentals of Microeconomics - Class Time	979 9696 4503	Start	Delete
Tomorrow (Recurring) 4:10 PM	[SSCI] Fundamentals of Microeconomics - Prof Naveelski's Office Hours	954 7305 2649	Start	Delete
Thu, Aug 27 (Recurring) 2:50 PM	[SSCI] Fundamentals of Microeconomics - Class Time	979 9696 4503		Delete
Thu, Aug 27 (Recurring) 4:10 PM	[SSCI] Fundamentals of Microeconomics - Prof Naveelski's Office Hours	954 7305 2649		Delete
Tue, Sep 1 (Recurring) 2:50 PM	[SSCI] Fundamentals of Microeconomics - Class Time	979 9696 4503		Delete
